

Get To Know Ting Internet

We're Ting Internet, a Tucows company. Founded in 1993, Tucows' mission is to improve internet access and affordability.

We believe fiber is the future and are committed to bringing the benefits of super-fast fiber internet to all Americans. But beyond great internet service, we think customers deserve an internet service provider (ISP) who is honest, helpful, responsive and refreshingly human. That's why we're proud to support local initiatives that close the digital divide and foster entrepreneurship, innovation and education.
